Recording Open Results

This document describes the processes for recording results for Open competitions.

Only entry of results is included, processes and responsibilities are included in the *Open Event Management* document.

If using mobile devices to record results this document still applies, but it is also necessary to refer to the document *Recording Results on Mobile Devices*.

All documents referred to are available on the website.

		No of qualifiers in this section					
Number of wins to qualify: 2		No of qualifiers in competition					

The results file will include a sheet for each section of section play and one for post section. Update each section play sheet with the green number/name that the section is to be played on.

For each result enter W for a win and L for a loss (upper case preferred). Other abbreviations such as NP, DNP, bye, Def can be entered for games not played or defaulted.

The system will automatically identify and record teams that have qualified or not qualified by inserting a Q or X in the last column.

2. Weather Interruption

If weather or any other interruption causes the number of section play rounds to be reduced then the number of wins to qualify must be changed to 1.

The post section sheet provided caters for the expected maximum number of qualifiers. However, if it is not possible to play any post section rounds and all entries proceed to post section, then it is probable that the post section template provided will not cater for enough teams. In this instance, contact the Centre Administrator who will provide a post section draw which will allow all teams to be entered.

Post Section Section A Section B

Ready

The section play charts show the number of qualifiers for post section. Ensure you have this number of names in the post section draw

Enter names from the bottom of the sheet as they are drawn. Start on the left hand column and move to the second column for teams which draw a bye.

The numbers on the left hand side are a guide to moving to the second column depending on the number of qualifiers.

Rink numbers for games after round 3 are allocated at the discretion of the host Club.

Enter results by entering the shots each team has scored in the column next to the name.
The winners name will automatically be advanced to the next round.
